Participant Information Sheet

Just 5 Vibes

PROJECT DESCRIPTION

We are looking at enhancing the experience of audience members at music festivals in a social/mobile context. This study will help to identify potential areas we can enhance and suggest creative solutions for this space.

YOUR PARTICIPATION

Participants will be engaging for a 30 minute interview. Within this interview, the interviewer may ask various questions to the participant and may ask them to draw various diagrams to help illustrate their stories. The interviewer may also ask to take some photos of related music festival-related materials with the participant's consent.

Participants can opt out of the study at any time and are not forced to answer questions they do not want to.

DATA WE ARE COLLECTING

Data will be collected via written notes and the interview will be recorded via mobile phone. Additional stimuli may be collected including photos, external drawings/mapping, and any other small tasks requested.

CONFIDENTIALITY

All information collected from you will be de-identified and/or allocated a code. Personal information that is obtained will be strictly confidential.

De-identified and/or coded information will be reported to staff and students of the course DECO3500 in which the student researchers are enrolled.

Evidence of your agreement to participate will be provided to the staff of the course for record-keeping, but will not be associated with the information you provide.

RISKS TO YOU

There are no risks to you participating in this project beyond those that exist in normal daily life.

PARTICIPATION IS VOLUNTARY

There are no direct benefits to you in participating in this project.

Your participation is entirely voluntary. You don't have to be in this study if you don't want to, and you can ask to stop at any time. There are no negative consequences should you wish to stop, data

collection will cease immediately and any data collected from you or about you will not be included in the study.

ETHICAL CONDUCT OF THE RESEARCH

This research project is being conducted as a learning activity of The University of Queensland. If you would like to speak to the course teaching staff about any aspect of this project, you may contact them with the details provided.
